Professional experience

May 2000 to-date. Public Health Department, ITM A. Research fellow.

- ◆ Networking and capacity building
Network « Unmet Obstetric Need »: research fellow for the implementation of the UON approach (supported by the European Commission, DG8 and Technical Belgian Cooperation) in about 10 countries (Bangladesh, Benin, Burkina, Cambodia, Haiti, Mali, Mauritania, Mozambique, Niger, Pakistan, Rwanda, Tanzania). The goal of the UON Network is to improve the pregnancy outcome by providing countries with tools and methods that can help them change maternal health policy, to strengthen their capacity to tackle maternal health and create a favourable political environment (<http://www.itg.be/uonn>).
Most of the job consists in supporting national teams in the elaboration of UON adapted protocols, data collection quality control and analysis.
- ◆ Teaching
Practice of demography and computer skills at the ICHD MPH course, ITM, Antwerp
Public health at the Nurses & Midwives Tropical Medicine Course (DHTM), ITM, Antwerp.
Maternal and neonatal health at the Master in Disease Control, (MDC) ITM, Antwerp
UON approach at the Summer Course in Reproductive Health, Catholic University of Louvain and at the Reproductive Health module of the MSc course, ITM, Antwerp.
- ◆ Research and management of research
PASSAGE (Projet d'approche solidaire en santé génésique). General coordinator. The "Project of solidarity approach in reproductive health" aims to improve reproductive and sexual health of populations, especially the adolescents of the project areas (three towns: Mopti, Mali; Ouagadougou, Burkina Faso; Maroua, Cameroon). Target groups are the youth, women and the poor.
REAC (REsponse to ACcountable priority setting for Trust in health systems) Support to the Tanzanian, Kenyan and Zambian teams in data collection and analysis for work program "influence on Emergency Obstetric Care".
AUDOBEM (Effectiveness of facility-based audits to improve the responsiveness of West African district hospitals to obstetric emergencies: a three-country cluster randomised controlled trial. Elaboration of guidelines on clinical audit and training for trainers.
IPACT development and delivery of training courses for the "Monitoring and Evaluation of Maternal and Neonatal Health Programmes" courses

AQUASOU (Access to Quality Emergency Obstetric Care). Support to the Burkina team (situation analysis, protocols, data collection and analysis).

Data management and data analysis of the process measurement work program of the IMMPACT Project.

Capacity strengthening on database management for the IMMPACT Project Burkina Faso.

October 1998 to March 1999, *Research fellow in demography Université Catholique de Louvain.*

- ◆ *Research on school population perspectives.*

December 1988 to Augustus 1995, *Médecins Sans Frontières Belgium.*

- ◆ *Drawing up blood transfusion guidelines for developing countries.*
- ◆ *Research on laboratory test for AIDS screening in developing countries*
- ◆ *Managing the medical side of a refugee assistance programme in Guinea Conakry.* Supervision of health posts, management of immunisation programme, nutritional surveys, management of epidemics, survey of perception of quality of health care in refugee population.
- ◆ *Set up and management of a central buying system for drugs and medical equipment for health structures in Guinée forestière.* Setting up a shareware for drugs. Staff training in pharmacy management.
- ◆ *Co-responsible in an access to primary health care improvement project in Guinée forestière.* Planning and supervision of health centres, training hospital staff, hospital management, doctor in charge of paediatric services and internal medicine at the Yomou district hospital. Curative consultations.
- ◆ *Co-responsible of an Angolan refugee programme in Zaire (Shaba).* Supervision of health posts, staff training, immunisation programme. Curative consultations at Kisenge hospital.

May 1988 to June 1988 *General practitioner Hôpital Pelzer Verviers.*

Education:

Master in Demography, 1998, Université Catholique de Louvain.

Diploma in Tropical Medicine and Hygiene (DTM&H), 1988, IMT A.

Medical Doctor (MD), 1987, Université de Liège.
